

Name 1

In your heart

Where is God?

Age 10

I chose to draw a heart in the middle of my piece of art as I believe that God is in everyone's heart. I wrote questions coming from the heart because people question who God is and why God allows things to happen. People also make comments about God.

Name 10

Age 9

Dark and Light

Where is God?

I chose to draw a happy and sad side representing heaven and hell. The earth is in the middle and split into two. God is everywhere and all around but some people choose to do bad things and not follow God and some choose to do good things and do follow God.

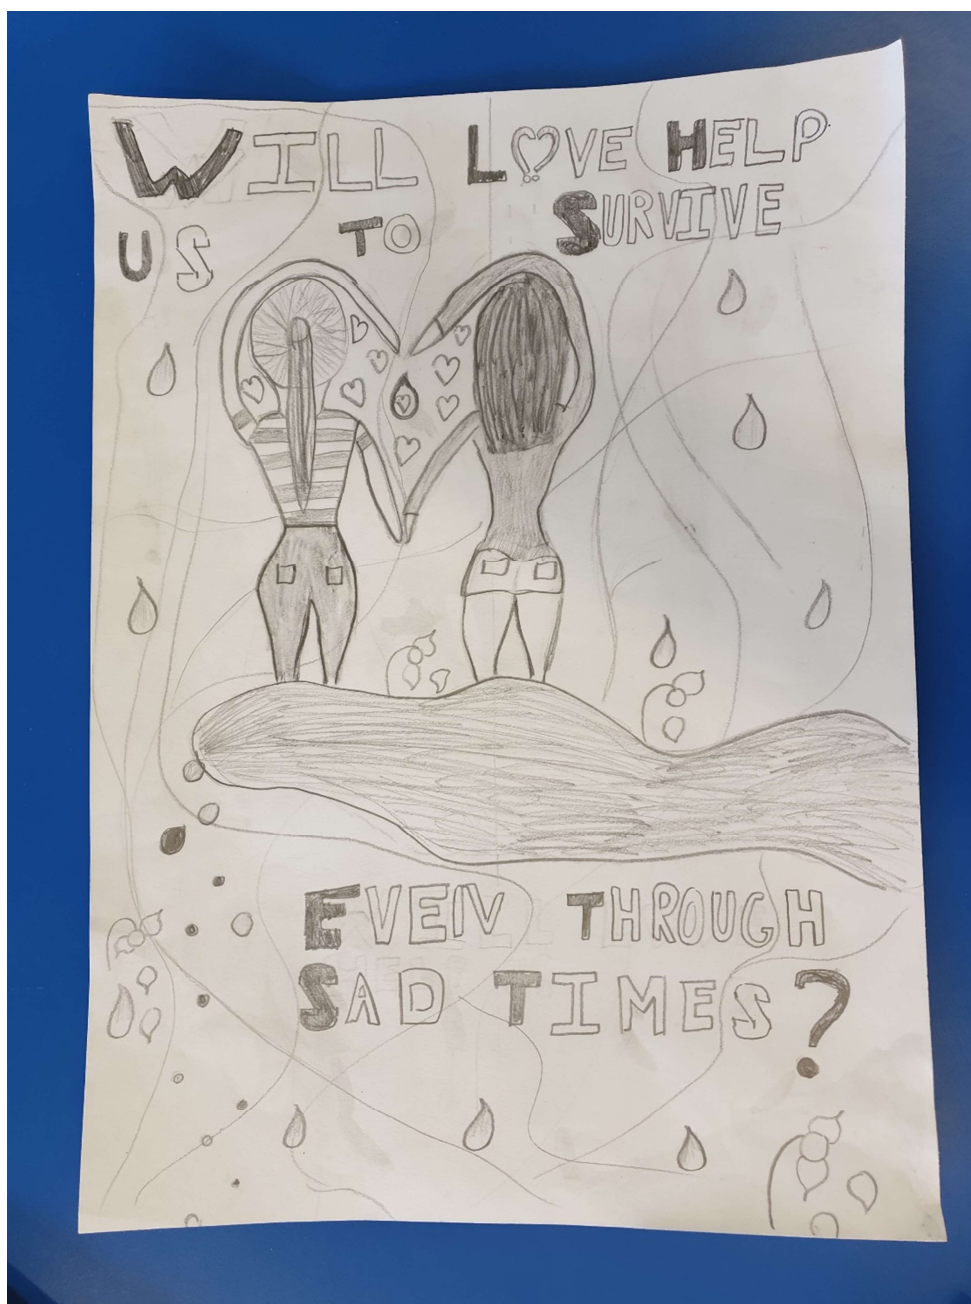

Name 3

Age 11

Love

Questions, questions, questions.

I chose to draw a black and white world with wilting flowers and rain in a tear drop shape. I made a sad world where two girls are stuck in it and it's a sad time. They show their friendship keeping them together. I think that love/friendship can't always help us through pain or sadness because losing a friendship or loved one in anyway is often the cause of the pain. Other friends or loved ones will help us through this. Pain is a consequence of love.

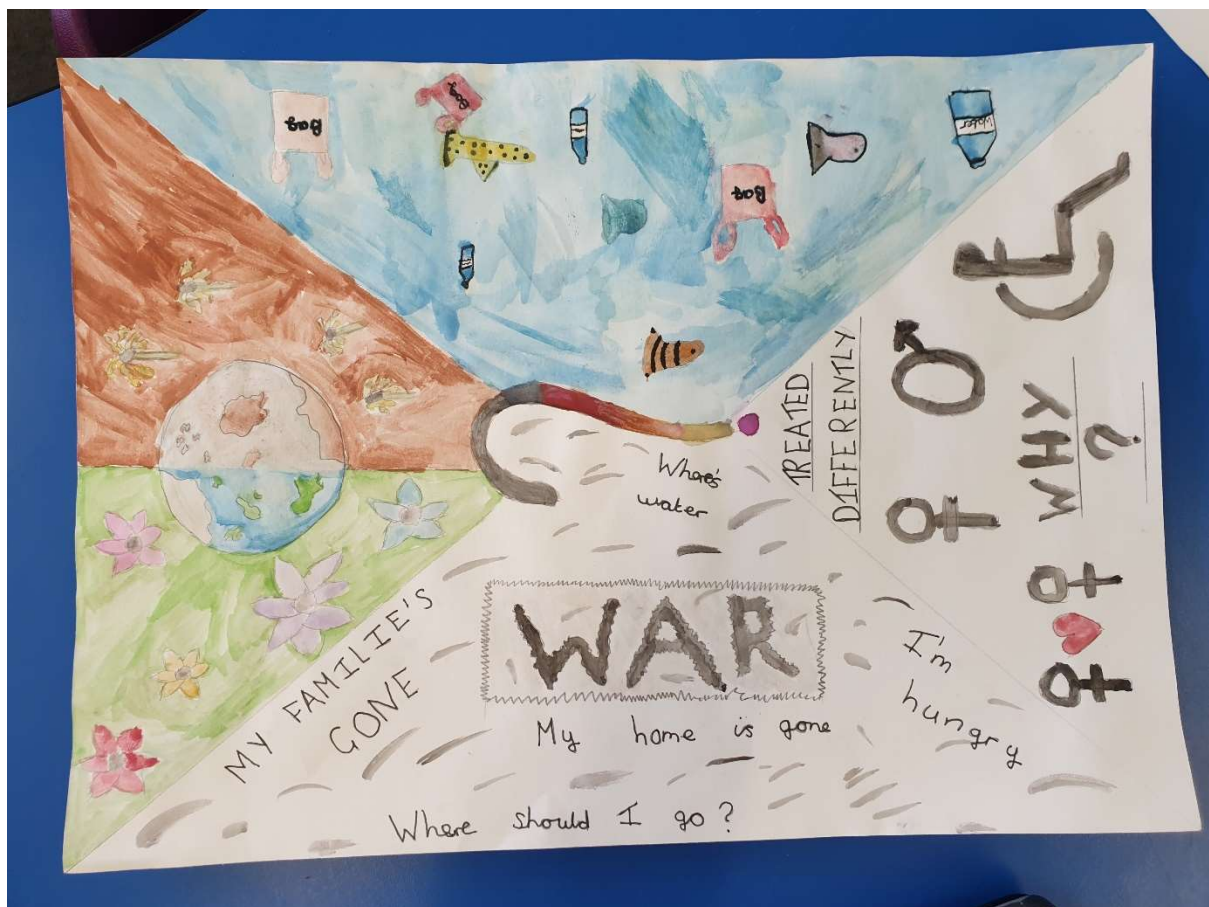

Name 4

Age 11

Global Warming

I chose this piece of art to show various questions that I believe are important. Why is there global warming. Why are men and women still treated differently? Why is there pollution? Why are black and white people still treated differently? Why are still killing and poaching endangered animals? Why do we not learn from the past?

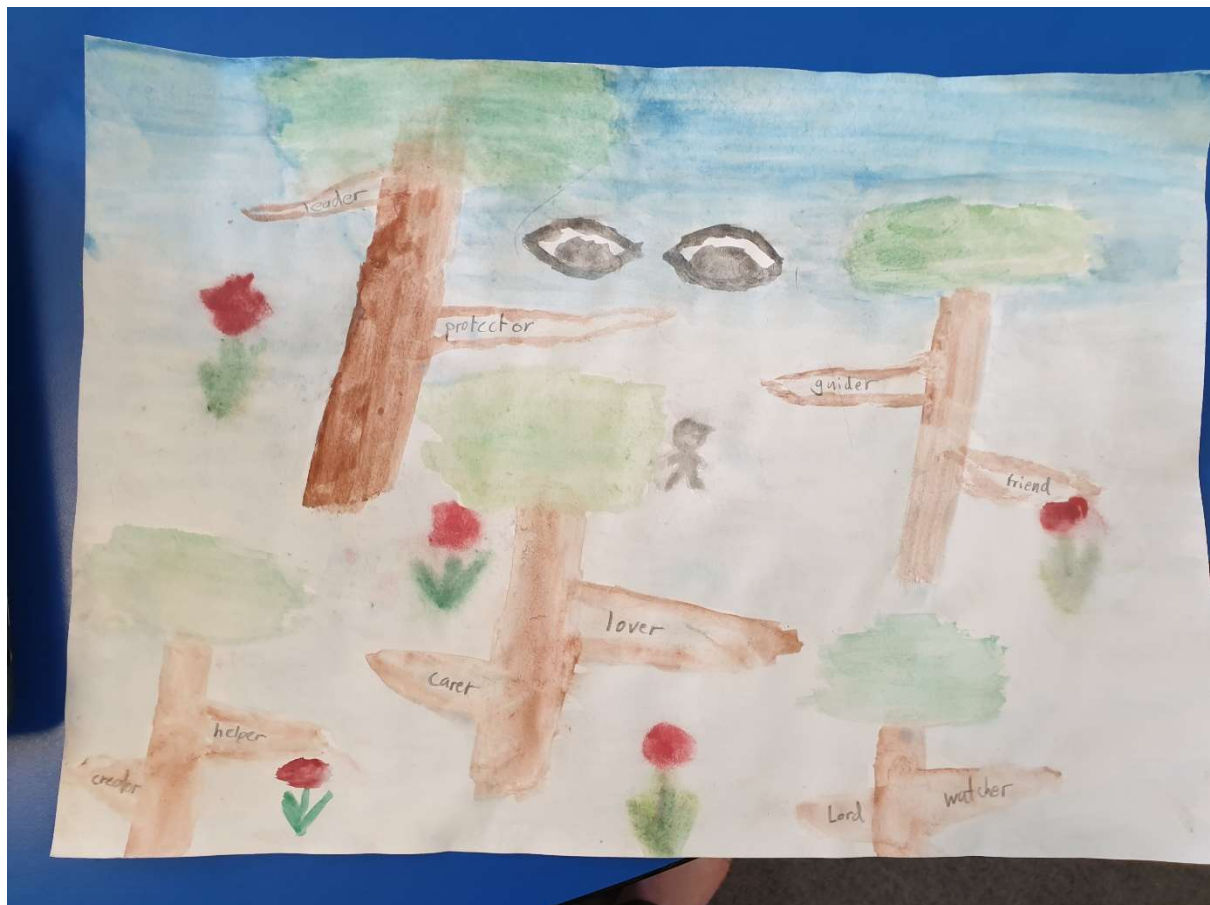

Name 3

Age 11

Spirited Love

Questions, questions, questions.

I chose my design because it reflects what God is and it shows you that God is always watching you. The trees represent life and the flowers represent blood and death, but also love and respect. The part that I like best about my art is how the eyes are watching you and watching over the little child. I have tried to show that God brings a caring, protective and happy feeling.

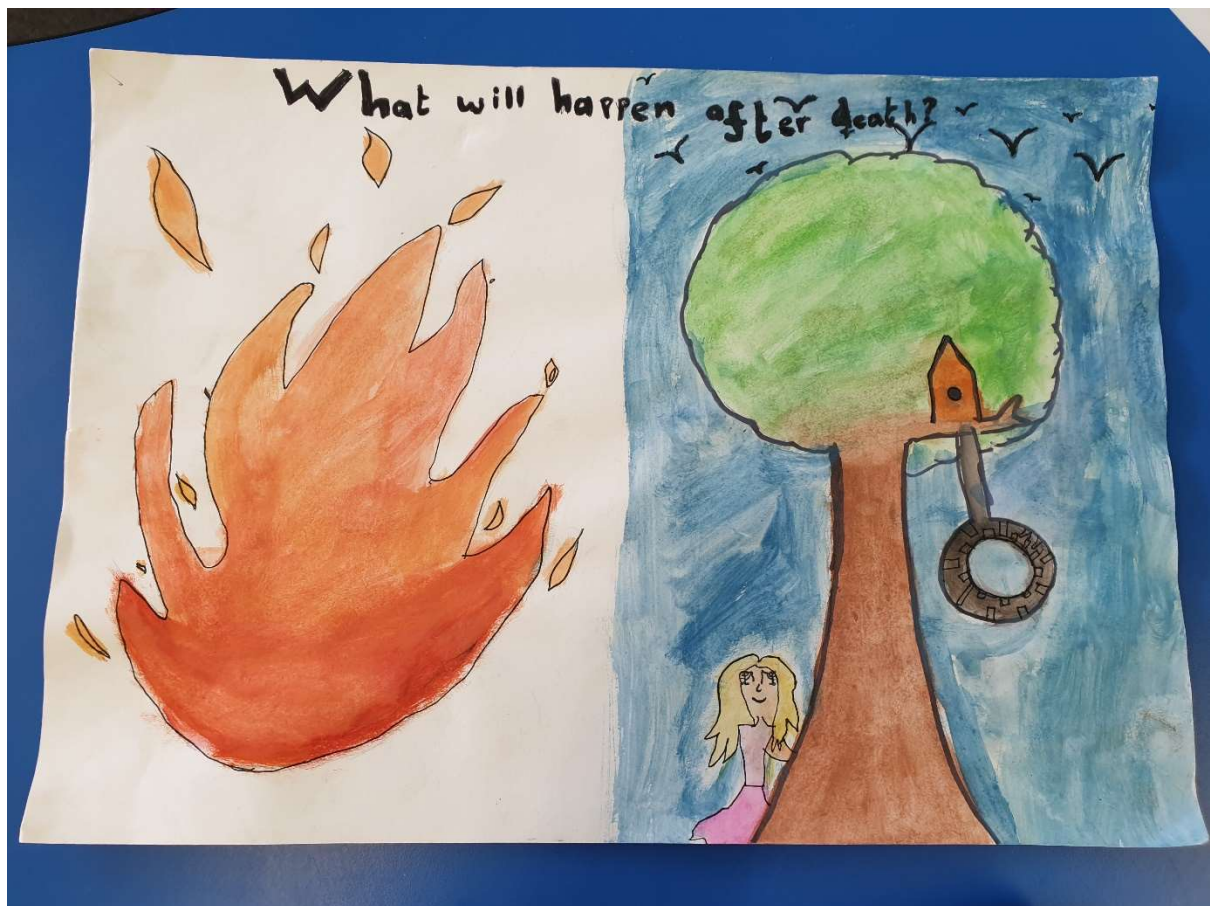

Name 4

Age 10

What will happen after death?

I chose this design because I wanted to show heaven and hell.

The deepest part of my picture are the flames, which are intense. I have tried to show visions of life ahead of you and the feelings you might have. In my artwork you can see hell and heaven; the hell side is the flames and the other half shows a good life in heaven. The best part about my picture is the little girl. I first had the vision for my art thinking about a good life and a bad life and I was going to paint a sunset with words, but then I decided to do the flames and a tree to represent nature. My inspiration also came from my friend Alyssa's picture, which was awesome.

Name 6

Age 6

Mecca

Pilgrimages and Journeys

I chose the Hajj journey and the Kabbah as it is a special place for Muslims to go to feel closer to God. I chose to put the number 7 in several times as this represents the number of times a Muslim must walk round the Kabbah on their pilgrimage. The crescent moon is a symbol of Islam. The tents at the back show another part of the journey.

Name 7

Age 9

A special place

Pilgrimages and journeys

I chose the Golden temple as it is a special place for Hindus to go and feel closer to God. I think God brings life and light to people so I drew sun rays coming out of the temple and a rainbow to show that God is bright and happy.

Name 8

Age 9

The watchful keeper

Where is God?

I chose to draw the planet because I think that God is watching over us all, all the time. The lightening is going into the bad countries and creates floods and hurricanes. The thought bubble shows that God doesn't always do things directly but gives people ideas so they do things themselves. I think God is a floating spirit and is above the clouds looking after the people on earth and in heaven.

Name 9

Age 9

Universe

Where is God?

I think that God is in space hovering over our planet. As you can see Saturn on my picture is a big orange ball with a black ring around it that shows how God wraps his love around us. The eyes are God's eyes watching over us no matter where we are on earth or in space. God is everywhere.
